SITUATION SUMMARY

Hurricane Polo, Eastern Pacific Ocean

Polo is currently a hurricane located off the coast of southwestern Mexico. Hurricane Polo is traveling in a northwestward motion which is expected to carry through Saturday. Currently, maximum sustained winds are near 75mph with higher gusts extending up to 15 miles from the center of the hurricane with tropical storm-force winds extending outward up to 80 miles. National Hurricane Center reports that some strengthening is possible today through tonight, but is expected to weaken afterwards due to unfavorable upper-level winds. A US Air Force aircraft is scheduled to investigate Polo later today.

- SOC / Inland REOC remains activated in support of 2014 Drought

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Isolated thunderstorms along the Humboldt and Del Norte coast will continue through this evening then taper to showers. Showers and thunderstorms are expected to develop overnight into Thursday morning across the Mendocino coast as a vigorous system moves ashore. This same system will bring showers and thunderstorm to interior regions of Mendocino and southern Trinity counties Thursday afternoon.

San Francisco Weather:

A Pacific weather system will bring a chance of light rain today mainly across the north and in coastal areas. Temperatures will cool below seasonal averages today with some warming especially inland Friday and Saturday. Dry conditions will return by tonight with the next Pacific weather system approaching northern California toward midweek.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Temperatures cooling to below normal Thursday with a chance of showers and thunderstorms forecast. Warmer and drier weather returns for the weekend.

Hanford Weather:

An approaching low pressure system will lower temperatures to near normal today and Friday. Temperatures will rise above seasonal normals by Saturday. There will be a slight chance of showers and thunderstorms over the higher Sierras through Sunday.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

An upper low moving into the West Coast will bring significant cooling today. This low will drop southward on Friday then linger through Saturday bringing below normal temperatures with plenty of night through morning low clouds, fog, and even local drizzle west of the mountains. The low will slowly move northeastward Sunday then high pressure will build bringing warmer weather for early next week.

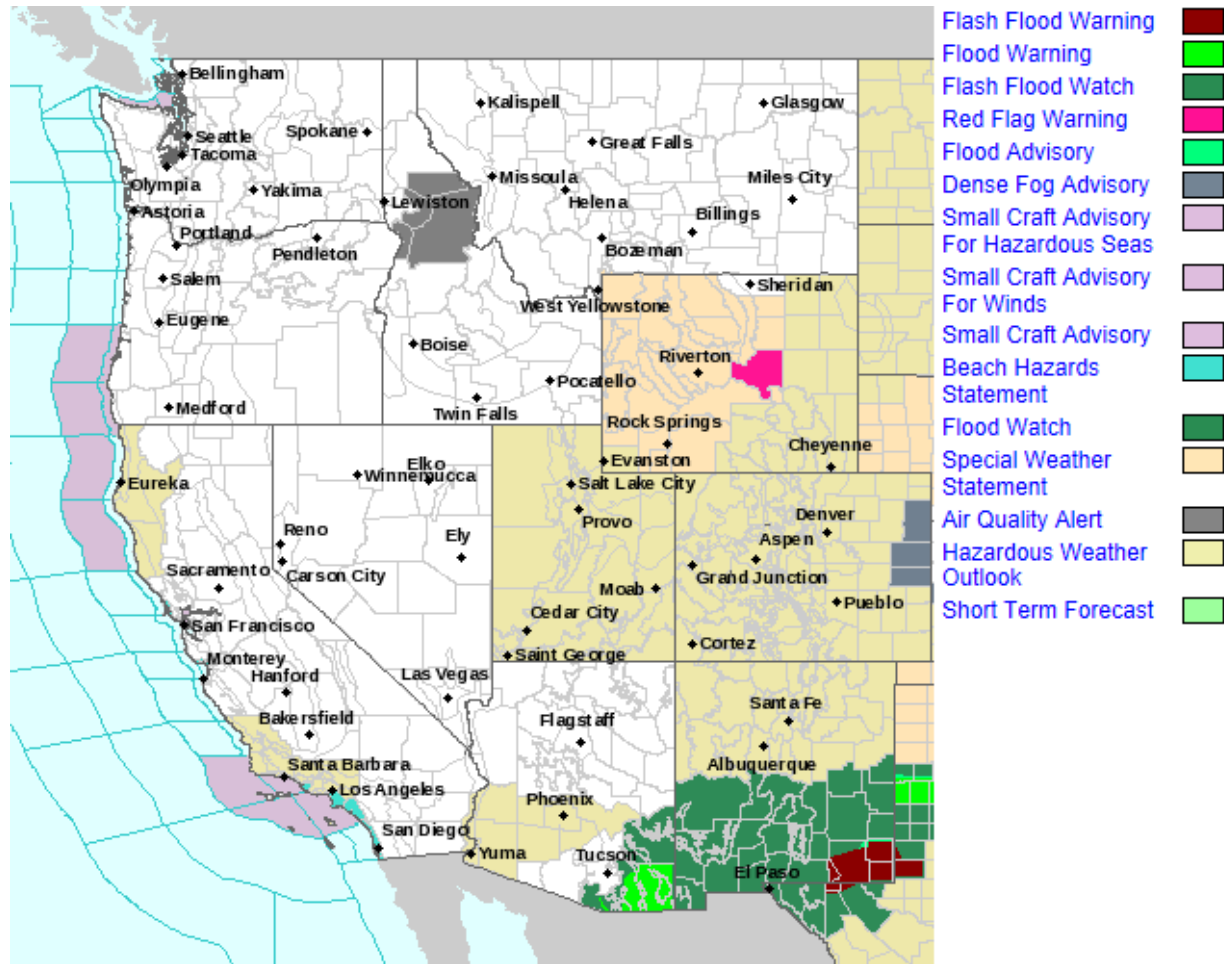

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A low pressure system approaching from the northwest will bring cooler weather and lower humidity through the weekend. Stronger onshore flow will bring gusty west winds to the mountains and deserts this afternoon and evening. The marine layer will return with coastal clouds extending locally inland nights and mornings. Isolated thunderstorms may form over the mountains Saturday afternoon. It will be dry and warmer early next week with higher pressure.

Southeast California Weather:

A low pressure system will continue to push drier air into southeastern California resulting in mostly dry conditions on Friday.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County

Recovery

- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/8/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County. IA PDA teams continue to conduct additional PDAs in Napa County.
- The City of Napa website has information regarding earthquake recovery resources.
- Cal OES Recovery PA worked closely with the Operational Areas to schedule the PA Applicants Briefing to advise state agencies, local governments, and private non-profit organizations impacted by the earthquake the types of assistance available and the programmatic guidelines. Time and location: 09/23/14 at 1000 hours at the Napa Valley Exposition in the Chardonnay Hall, 575 3rd Street, Napa, CA.
- The Napa Long Term Recovery Committee (LTRC) is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement. A follow up meeting is pending.
- State Voluntary Agency Liaison (VAL) participated in a Long Term Recovery discussion meeting on Monday, 09/15/14. Participants included several voluntary organizations, state and federal VAL, and leadership from Northern CA and Solano VOAD. A presentation on long term recovery and update on current recovery efforts was provided. Due to the absence of local faith based and other organizations that may have resources, SVOAD will reach out to expand the engagement of additional nonprofit and faith based partners. Once the organizations are identified, a follow up meeting will be held in hopes of identifying key leaders interested in forming a LTR committee.
